DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/29/2007 has been entered.

Response to Arguments

2. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2623

4. Claims 20-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Herz, (U.S. Pat # 5,758,257), in view of Watts, (U.S. Pat # 5,671,411).

Considering claims 20 & 28, the claimed method of displaying a TV program to a viewer, comprising processing information indicative of preferences of the viewer to develop a viewer characteristic information profile for the viewer is met by Herz, col. 10, lines 6-55; col. 11, lines 15-65 thru col. 12, lines 1-55; col. 14, lines 10-65, col. 15, lines 10-60.

Storing the viewer characteristics information profile on a viewer storage device, is met by col. 40, lines 21-65; col. 41, lines 1-15; col. 45, lines 9-30. Presenting the viewer with a list of TV programs available for viewing, the programs selected in accordance with the characteristics information profile, is met by col. 45, lines 34-50.

Receiving input from the viewer requesting different selections, col. 45, lines 34-60. Presenting the viewer with a list of alternative TV programs for viewing the alternative list selected in accordance with an alternative characteristics information profile, is met by the disclosure in Herz that more than one customer profile maybe stored at the STT, from which the user may receive a different list of suggested programming, col. 45, lines 55-67 thru col 46, lines 1-20.

As for the amended claimed feature of the list of TV programs being arranged in accordance with viewer characteristics information, Herz does not explicitly teach such a feature.

Art Unit: 2623

Nevertheless, Watts, which is in the same field of endeavor provides a teaching of arranging a listing of programs according to a subscriber criteria, i.e. profile, col. 3, lines 40-67; col. 4, lines 21-65; col. 5, lines 1-35. It would have been obvious for one of ordinary skill in the art at the time the invention was made, to modify Herz with the feature of organizing a list according to viewer preferences, at least for the improvement of allowing the viewer to see the list of programs in the order which he would most likely be interested, see Watts col. 1, lines 35-67; col. 2, lines 1-10.

Considering claims 21-27, Herz meets all subject matter, col. 17, lines 35-65; col. 26, lines 5-65; col. 46, lines 1-20. Also see Watts, col. 6.

Considering claims 29-31, see Herz, col. 26, lines 1-21; col. 29, lines 30-65 & col 45, lines 20-65.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

A) Lawler Organizing an EPG according to preferences.
